COMPLEMENTI D'ARREDO IN METALLO NOBILE

ARTIGIANI DELL'ECCELLENZA

Nel 1946, dal laboratorio di Alfredo Porro, nasce Officine Meccaniche Porro e quello che era un laboratorio artigiano acquista le dimensioni di un'Azienda senza mai perdere la sua vocazione artigianale.

Negli anni '70 sarà il figlio Giuseppe ad allargare la gamma di prodotti di grande qualità concepiti e creati con passione, esteticamente pregevoli e tecnologicamente sempre all'avanguardia.

Tutti valori che sono passati anche alla terza generazione della famiglia: Fabio, Donata e Paola che continuano ad offrire una produzione in cui qualità, passione artigianale, estetica e la miglior tecnologia disponibile ben rappresentano l'Eccellenza Italiana in oltre 80 Paesi nel mondo.

EXCELLENCE IN CRAFTSMANSHIP

In 1946, Alfredo Porro transformed his workshop into Officine Meccaniche Porro, effectively turning a craft laboratory into a corporate endeavor that, however, never lost its artisanal roots.

In the 1970s, Alfredo's son, Giuseppe, broadened the range of high-quality, aesthetically valuable and technologically advanced products designed and created with passion.

These values have been passed on to the Porro Family's third generation: Fabio, Donata and Paola continue to offer today products whose quality, artisanal passion, aesthetics and state-of-the-art technology well represent Italian Excellence in more than 80 countries.

COMPLEMENTI D'ARREDO IN METALLO NOBILE

Il marchio, dedicato al nostro fondatore, contraddistingue la nostra produzione di complementi per mobili, tende e scale in cui la qualità delle materie prime, la funzionalità e l'aspetto decorativo raggiungono livelli estremamente elevati. Oggetti curati nel dettaglio, solidi e destinati a durare nel tempo e un gran numero di referenze, di stili, di materiali e di finiture che possono soddisfare ogni esigenza e completare, coerentemente, la nostra offerta di maniglie.

NOBLE METAL ACCESSORIES

Our brand, dedicated to our founder, defines our production of accessories for furniture, curtains and stairs whose raw material quality, functionality and decorative aspect reach extremely high levels. Solid, durable and carefully detailed items, as well as a large number of references, styles, materials and finishes that can meet any expectation and complete our range of handles.

MANIGLIERIA DI PREGIO DAL 1850

Il prestigioso marchio Enrico Cassina rappresenta l'apice della qualità e dello stile nella maniglieria.

Veri «pezzi d'arte» artigianali nella purezza stilistica che va dal Barocco al Contemporaneo e che consente di completare coerentemente qualsiasi progetto architettonico o di interior design.

Prodotti unici e ricercati presenti nelle ville e negli hotel più prestigiosi in oltre 80 Paesi nel mondo e che, come tutta la produzione Officine Meccaniche Porro, sono garantiti 100% Made in Italy.

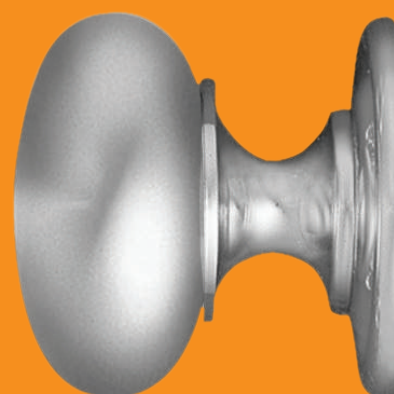

PRESTIGIOUS DOOR HANDLES SINCE 1850

The prestigious Enrico Cassina brand represents the pinnacle of quality and style in door handles. True artisanal "art pieces" whose style ranges from the Baroque to Contemporary themes, and allows completing any architectural or interior design project. Unique and sophisticated products installed in the most prestigious villas and hotels in more than 80 countries, and which, like all Officine Meccaniche Porro production, are guaranteed, 100% Made-in-Italy creations.

ALFREDO PORRO

MANUFACTURED BY OFFICINE MECCANICHE PORRO

In occasione del settantesimo anno di vita delle Officine Meccaniche Porro, Fabio, Donata e Paola Porro hanno voluto dedicare al nonno Alfredo la gamma di complementi d'arredo per mobili, tende e scale.

È nel 1946, infatti, che Alfredo Porro compie il grande passo, da bottega artigiana per la riproduzione di chiavi fonda le Officine Meccaniche Porro.

L'Officina di Cantù - rinominata Officine Meccaniche Porro - diventa presto punto di riferimento per i più importanti mobilifici e falegnamerie della zona, la Brianza, ovvero quella zona a nord di Milano che è famosa proprio per la produzione di mobili e infissi.

La qualità delle materie prime utilizzate e delle lavorazioni, spesso rifinite a mano una ad una, non si discutono. Alfredo Porro poteva rompere un'amicizia decennale per il suggerimento di utilizzare la zama, lega povera e meno costosa dell'ottone ma con la stessa resa estetica, la sua filosofia era «qualità» prima di tutto.

Il figlio Giuseppe affiancherà il padre per poi prendere le redini dell'Azienda e, oggi, è la terza generazione della Famiglia Porro che continua una produzione contraddistinta da qualità delle materie prime, cura artigianale nelle lavorazioni, ricerca di sempre migliori tecnologie.

In Officine Meccaniche Porro, oggi come nel 1946, anche il più piccolo pomolino deve essere fatto al meglio e con i migliori prodotti utilizzabili.

Tutti prodotti del marchio Alfredo Porro sono 100% Made in Italy, garanzia di alta qualità, attenzione al dettaglio e design impeccabile. In sintesi: tutti i prodotti Alfredo Porro possono fregiarsi, senza tema di smentita, del titolo di prodotti dell'Eccellenza Italiana nel mondo.

On the occasion of Officine Meccaniche Porro's 70th birthday, Fabio, Donata and Paola Porro dedicated to grandpa Alfredo a complete catalog of accessories for furniture, curtains and stairs.

It was 1946, indeed, when Alfredo Porro made the big leap, transforming his artisan workshop into Officine Meccaniche Porro.

The Cantù facilities, renamed Officine Meccaniche Porro, became a reference point for the most important furniture makers and carpenters of the Brianza region, an area north of Milan famous for the production of furniture, as well as windows and doors.

The quality of the raw materials used and the handiwork were, and still are, unquestionable. For his creations and in honor of his "quality-above-all" philosophy, Alfredo Porro chose to use brass over zinc alloy, which, though cheaper than and similar in appearance to brass, was qualitatively weaker.

Giuseppe Porro joined his father, eventually taking the company's helm, which is today held by the family's third generation. Production continues, always distinguished by the high quality of raw materials, accurate handiwork and search of the best technology.

Today, as in 1946, at Officine Meccaniche Porro even the smallest knob must be perfect, so it is made using the best materials available.

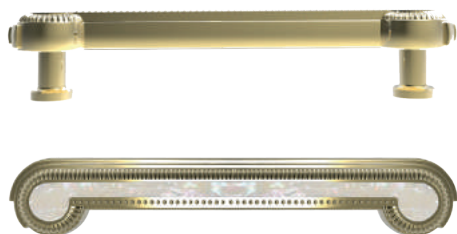

All Alfredo Porro brand products are 100% Made in Italy. They guarantee top quality, care in every detail and impeccable design. In short: all Alfredo Porro products can unquestionably claim to embody Italian Excellence in the world.

A photograph of a highly ornate, white-painted cabinet with extensive gold leaf detailing. The cabinet features a large, oval-shaped medallion on its front, surrounded by intricate carvings and a lattice pattern. It stands on a complex, multi-legged base. To the left, a matching chair with a yellow upholstered seat is partially visible. The setting is a room with dark wood paneling and a large window with white curtains, through which green foliage is visible. The floor is made of polished wood.

A bright, modern living room with a high ceiling and recessed lighting. The room features a large bay window with white shutters and a smaller window on the left. A beige sofa is positioned on the left, and a matching armchair and ottoman are on the right. A dark wood coffee table sits on a patterned rug. The floor is made of wide-plank wood. The text "PUNTALE E PIEDINI PER MOBILE" is overlaid in white, and "CABINET FEET" is overlaid in orange.

A photograph of a modern staircase with a glass railing and metal handrails. The railing is made of clear glass panels held together by metal brackets and handrails. The background is a light-colored wooden wall with vertical planks. The text "ACCESSORI TENDE E SCALE" is overlaid in white, and "CURTAINS AND STAIRS ACCESSORIES" is overlaid in orange.

**STAMPAGGIO
A CALDO**

**HOT
FORGING**

La tecnologia dello stampaggio a caldo ha preso il posto della tradizionale fusione in quanto consente di ottenere prodotti con forme complesse e una qualità costante.

Hot forging replaced the traditional metal casting process, since it allows producing more consistent and higher quality products.

**PVD
(PHYSICAL VAPOUR
DEPOSITION)**

**PVD
(PHYSICAL VAPOUR
DEPOSITION)**

Processo di deposizione molecolare in condizioni di alto vuoto e ad alte temperature, conferisce ai nostri prodotti un'elevatissima resistenza agli agenti chimici e atmosferici e illimitata resistenza all'ossidazione. La resistenza antigraffio è di 4 volte superiore ai normali rivestimenti galvanici.

Physical Vapour Deposition, or molecular deposition process in high vacuum conditions and at high temperatures, gives our products an extreme resistance to chemical agents and meteorological elements, as well as unlimited resistance to oxidation. Anti-scratch resistance is 4 times higher than what is yielded by standard galvanized coating.

CESELLATURA

CHISELLING

Nonostante l'uso di stampi, siano essi gli storici o i più moderni delle collezioni contemporanee, alcuni particolari decorativi richiedono ancora la mano esperta del Mastro Cesellatore che va a rifinire e portare al dovuto risalto i particolari più minuti ottenendo un vero e proprio «pezzo d'arte» unico e immediatamente distinguibile.

Despite the use of molds, whether from historical or more contemporary collections, some decorative details still require the expert hand of the Master Chiseller, who refines and enhances the smallest details, thus producing a true, unique and immediately recognizable "art piece".

DIAMANTATURA

DIAMOND DRESSING

Facciamo «brillare» i nostri prodotti come un gioiello prezioso con questa lavorazione che consente di ottenere purezza geometrica, planarità delle superfici e un'estrema luminosità utilizzando, allo scopo, un diamante grezzo.

We give our products the “brightness” of precious jewels. Polishing objects with a rough diamond gives our products geometric purity, flat surfaces and extreme brightness.

LAVORAZIONE ARTIGIANALE

CRAFTSMANSHIP

Ai nostri complementi applichiamo tecniche di produzione e di finitura altamente tecnologiche ma ci sono oggetti che richiedono, ancora, tutta la maestria artigiana – maturata in 70 anni di storia – per ricevere finiture specifiche e manuali quali, ad esempio, le sfumature delle finiture in oro antico.

To our products, we apply state-of-the-art manufacture and finishing techniques. However, some items still require the employment of the craftsmanship we honed in 70 years of activity, such as, for instance, antique gold finish shading.

MAGNETE

MAGNET

Un brevetto con magneti al neodimio, esclusivo e registrato da Officine Meccaniche Porro, e le nostre maniglie – da incasso a levitazione – diventano silenziosissime e inalterabili nel tempo.

Officine Meccaniche Porro have patented a magnetic levitation mechanism that, thanks to neodymium magnets integrated inside flush handles, makes them extremely quiet to operate and durable over time.

QUALITÀ

Metalli nobili, tecnologie d'avanguardia e brevetti esclusivi, per una produzione di complementi per mobili, tende e scale di qualità superiore.

ASSORTIMENTO

Oltre 20.000 referenze per adattarsi a tutte le possibili esigenze sia in termini di stile che di scelta dei materiali.

LAVORAZIONI

Attente e rigorose lavorazioni controllate passo per passo, per garantire prodotti belli da vedere e con una durata nel tempo ineguagliabile.

FINITURE

Finiture con tecnologie di punta o manuali perché ogni prodotto Alfredo Porro sia all'altezza delle più elevate aspettative.

MISURE

Le misure sono espresse in millimetri. Le misure degli articoli indicate nel catalogo possono subire lievi modifiche di perfezionamento.

100% MADE IN ITALY

Tutti i complementi per mobili, tende e scale della linea Alfredo Porro – come tutta la produzione Officine Meccaniche Porro – sono garantiti come interamente concepiti e realizzati in Italia.

QUALITY

We only use noble metals, cutting-edge technology and exclusive patents to manufacture superior quality accessories for furniture, curtains and stairs.

RICH INVENTORY

More than 20.000 references to meet all of our customers' needs, both in terms of style and selection of materials.

PRODUCTION PROCESSES

Accurate and rigorous production processes and a step-by-step quality control – that is how we can guarantee products that are as beautiful as they are durable over time.

FINISHES

Finishes that rely upon cutting-edge technology, as well as manual work: each Alfredo Porro product must meet the most demanding expectations.

MEASUREMENTS

All dimensions are in millimeters. Item's dimensions indicated in the price list could vary slightly according to the finished products' requirements.

100% MADE IN ITALY

Like the entire Officine Meccaniche Porro catalog, all Alfredo Porro accessories for furniture, curtains and stairs are entirely designed and manufactured in Italy.

I COLORI DELLE FINITURE SONO INDICATIVI

Alcune finiture vengono eseguite manualmente e pertanto possono presentare variazioni di tonalità e sfumatura creando doti di unicità e bellezza del prodotto.

THE COLOURS OF THE FINISHES ARE INDICATIVE

Some of the finishes are performed manually therefore variations in colour tone and shading may occur giving beauty and uniqueness to the product.
