

officine meccaniche porro

ARTIGIANI DELL'ECCELLENZA

Nel 1946, dal laboratorio di Alfredo Porro, nasce Officine Meccaniche Porro e quello che era un laboratorio artigiano acquista le dimensioni di un'Azienda senza mai perdere la sua vocazione artigianale.

Negli anni '70 sarà il figlio Giuseppe, ad allargare la gamma di prodotti di grande qualità concepiti e creati con passione, esteticamente pregevoli e tecnologicamente sempre all'avanguardia.

Tutti valori che sono passati anche alla terza generazione della famiglia: Fabio, Donata e Paola che continuano ad offrire una produzione in cui qualità, passione artigianale, estetica e la miglior tecnologia disponibile ben rappresentano l'Eccellenza Italiana in oltre 80 Paesi nel mondo.

EXCELLENCE IN CRAFTSMANSHIP

In 1946, Alfredo Porro transformed his workshop into Officine Meccaniche Porro, effectively turning a craft laboratory into a corporate endeavor that, however, never lost its artisanal roots.

In the 1970s, Alfredo's son, Giuseppe, broadened the range of high-quality, aesthetically valuable and technologically advanced products designed and created with passion.

These values have been passed on to the Porro Family's third generation: Fabio, Donata and Paola continue to offer today products whose quality, artisanal passion, aesthetics and state-of-the-art technology well represent Italian Excellence in more than 80 countries.

ENRICO CASSINA

MANUFACTURED BY OFFICINE MECCANICHE PORRO

MANIGLIERIA DI PREGIO DAL 1850

Il prestigioso marchio Enrico Cassina rappresenta l'apice della qualità e dello stile nella maniglieria.

Veri «pezzi d'arte» artigianali nella purezza stilistica che va dal Barocco al Contemporaneo e che consente di completare coerentemente qualsiasi progetto architettonico o di interior design.

Prodotti unici e ricercati presenti nelle ville e negli hotel più prestigiosi in oltre 80 Paesi nel mondo e che, come tutta la produzione Officine Meccaniche Porro, sono garantiti 100% Made in Italy.

PRESTIGIOUS DOOR HANDLES SINCE 1850

The prestigious Enrico Cassina brand represents the pinnacle of quality and style in door handles. True artisanal "art pieces" whose style ranges from the Baroque to Contemporary themes, and allows completing any architectural or interior design project. Unique and sophisticated products installed in the most prestigious villas and hotels in more than 80 countries, and which, like all Officine Meccaniche Porro production, are guaranteed, 100% Made-in-Italy creations.

ALFREDO PORRO

MANUFACTURED BY OFFICINE MECCANICHE PORRO

COMPLEMENTI D'ARREDO IN METALLO NOBILE

Il marchio, dedicato al nostro fondatore, contraddistingue la nostra produzione di complementi per mobili, tende e scale in cui la qualità delle materie prime, la funzionalità e l'aspetto decorativo raggiungono livelli estremamente elevati. Oggetti curati nel dettaglio, solidi e destinati a durare nel tempo e un gran numero di referenze, di stili, di materiali e di finiture che possono soddisfare ogni esigenza e completare, coerentemente, la nostra offerta di maniglie.

NOBLE METAL ACCESSORIES

Our brand, dedicated to our founder, defines our production of accessories for furniture, curtains and stairs whose raw material quality, functionality and decorative aspect reach extremely high levels. Solid, durable and carefully detailed items, as well as a large number of references, styles, materials and finishes that can meet any expectation and complete our range of handles.

IL PERFETTO
INCONTRO
TRA INDUSTRIA
E DESIGN

THE PERFECT
MATCH BETWEEN
MANUFACTURING
AND DESIGN

Fino alla metà dell'Ottocento le belle maniglie erano prerogativa di palazzi nobiliari o ricche dimore; è **Enrico Cassina**, a metà del secolo, ad intuire l'esigenza diffusa di disporre di **maniglie esteticamente pregevoli**.

Inizia così la sua produzione che, grazie a stampi opportunamente creati, può riproporre **maniglie di pregio** a costi più abbordabili, maniglie d'arte e di stile che, oggi, coprono un arco temporale dal **Barocco** al **Contemporaneo**.

È nel 2005 che **Officine Meccaniche Porro** rileva lo storico marchio **Enrico Cassina** avendo così accesso all'**ampio archivio di stampi** che costituisce «un tesoro» per chi ancora produce con passione e molta artigianalità.

Con un certosino lavoro di catalogazione Officine Meccaniche Porro ha reso utilizzabile questo storico archivio che – integrato da rivisitazioni e creazioni contemporanee – consente di disporre di una scelta di **maniglie stilisticamente coerenti a tutte le epoche** ed a tutti gli **stili architettonici**.

Splendide maniglie con un **ventaglio di scelta unico e incomparabile** di cui non esistono uguali sul mercato.

Materie prime nobili e **tecnologie meccaniche avanzate**, unite a **finiture artigianali** e manuali, come solo le botteghe artigiane sanno ancora fare, contraddistinguono la produzione Enrico Cassina.

Le maniglie e gli accessori per porta del marchio Enrico Cassina rappresentano, oggi, il perfetto connubio tra **arte, artigianalità e tecnologia**, tutto rigorosamente **100% Made in Italy**.

Until the middle of the nineteenth century, beautiful door handles only belonged in noble palaces or stately homes; by then, **Enrico Cassina** well understood the increasing need to produce **aesthetically pleasant handles**.

That is how he began reproducing **exquisite door handles**, which, thanks to the use of casts, were more affordable. Over time, the styles offered covered a broad temporal arch, stretching from the **Baroque** to more **Contemporary periods**.

Officine Meccaniche Porro acquired the renowned **Enrico Cassina brand** in 2005, thus gaining access to a **rich inventory of molds** that are nothing short of a treasure for a manufacturer that still produces with passion and craftsmanship.

After painstaking cataloging, Officine Meccaniche Porro has made this inventory accessible for use, also enriching it with contemporary creations and adaptations. This precious repertoire inspires the production of **handles that are stylistically consistent with the reference epoch** and all offered **architectural styles**.

They are exquisite products that can be chosen from an **incomparable range** with no rivals on the market.

The Enrico Cassina handles marry **noble raw materials** and **mechanically advanced technology** to precious **manual finishes**, just like artisan workshops can do.

Enrico Cassina door handles and accessories represent today the perfect marriage among **100% Made-in-Italy art, craftsmanship and technology**.

QUANDO
LO STILE
DIVENTA
ARTE

WHEN
STYLE
BECOMES
ART

Le maniglie **Enrico Cassina** sono **pezzi d'arte** che racchiudono, con estrema maestria, lo **stile dell'epoca** che rappresentano e l'abilità artigianale che porta a particolari finissimi e **finiture manuali di alto valore**, maniglie uniche sul mercato.

La loro realizzazione è resa possibile grazie alle **Officine Meccaniche Porro** che mantiene in essere un **sistema produttivo** altrettanto unico: non «in linea» ma composto da più **botteghe artigianali** che lavorano in sinergia tra loro.

Questa organizzazione del lavoro permette di curare con passione artigianale ogni singola maniglia a cui si applicano i migliori meccanismi disponibili, molti brevettati ed unici sul mercato, per farne oggetti oltre che **stilisticamente perfetti meccanicamente all'avanguardia**.

La produzione di maniglie Enrico Cassina si fonda su una storia di **ricerca stilistica**, lunga 150 anni, che va dal Barocco al Contemporaneo, permettendo ad Architetti ed Interior Designer, così come ai **Clienti più esigenti**, di disporre di maniglie coerenti con il proprio progetto o con la propria **abitazione di prestigio**.

Ogni maniglia Enrico Cassina, prodotta solo con **materie prime di elevatissima qualità**, viene **manualmente rifinita** da esperti artigiani che con passione producono veri e propri pezzi d'arte, unici e 100% Made in Italy.

The **Enrico Cassina handles are unique works of art** that embody, with great mastery, **the style of the times** they represent, as well as the craftsmanship that ensures great attention to detail and **highly valuable manual finishes**.

Their production is made possible by **Officine Meccaniche Porro** and its unique **manufacture system**, one that is not linear, but comprising a series of **artisan workshops** that operate in synergy with one another.

This work organization allows producing every single handle with utmost attention and the use of mechanisms, many of which are patented and thus unique on the market, that enable the creation of **stylistically and mechanically perfect objects**.

The production of Enrico Cassina handles leverages a more than 150-year long **search for style** encompassing art periods stretching from the Baroque to the Contemporary age, thus allowing Architects and Interior Designers, as well as the **most demanding customers**, to have handles that meet their specifications or are perfect complement of their **elegant homes**.

Every Enrico Cassina handle, produced only with **raw materials of the highest quality**, is **manually finished** by skilled craftsmen who passionately produce real pieces of unique and 100% Made-in-Italy art.

LA PUREZZA DELLO STILE DAL BAROCCO AL CONTEMPORANEO

Fare una maniglia «in stile» è un esercizio che riesce a molti, fare delle maniglie rispettando la *purezza dello stile* riesce solo ad *Enrico Cassina*.

Non solo perché Enrico Cassina può contare su un archivio di stampi storico e ineguagliabile, ma anche perché la «purezza dello stile» si coglie nei *particolari più minuti* che richiedono, oggi come 150 anni fa, *l'intervento manuale* di *esperti artigiani* che Officine Meccaniche Porro è in grado di garantire.

Many can make a stylish handle; making handles that respect *purity of style* is, however, something that only **Enrico Cassina** can do.

Not only because Enrico Cassina can count on a rich and unrivalled inventory of historical and unique molds, but also because “purity of style” is achieved through the *smallest details* that, today like 150 years ago, require *experienced craftsmen* that only Officine Meccaniche Porro can provide.

A blue-tinted photograph of a woman wearing a white hijab and white-rimmed sunglasses, smiling while driving a classic convertible car. The car's interior, including the steering wheel and dashboard, is visible through the open windows. The text 'CINQUANTA' is overlaid in white, bold, sans-serif capital letters across the center of the image.

A monochromatic, blue-toned engraving of Napoleon Bonaparte. He is depicted from the chest up, wearing a laurel wreath that crowns his head. His expression is serious and direct. He is dressed in a military-style coat with a high, ruffled collar and decorative epaulettes on his shoulders. The background is dark and textured.

The background image is a low-angle, upward-looking shot of a grand, ornate interior space, likely a museum or a grand hall. It features tall, fluted columns with highly decorative, carved capitals. The ceiling is vaulted and adorned with intricate frescoes depicting figures in classical or religious settings. The lighting is dramatic, with strong highlights and deep shadows, creating a sense of scale and grandeur. The entire image is overlaid with a semi-transparent dark blue filter.

SERVIZIO
PERSONALIZZATO

BESPOKE
SERVICE

SU MISURA

Per chi non vuole rinunciare alla purezza dello stile ma ha necessità particolari tutte le Maniglie Enrico Cassina possono essere personalizzate.

Una personalizzazione dimensionale, per rendere la maniglia ergonomicamente adatta al singolo Cliente ma anche, quando necessario, per adattarla alle dimensioni particolari di portali o finestrate mantenendo equilibrata l'immagine d'insieme.

Come tutti i prodotti Officine Meccaniche Porro anche le maniglie Enrico Cassina possono avere, oltre alle finiture da noi consigliate, la finitura che più soddisfa il gusto di ogni nostro Cliente.

CUSTOMIZED

The Enrico Cassina handles can be customized for those who do not want to give up purity of style, but have special requirements to meet.

We can customize sizes to ergonomically adjust the handle to the customer's own specifications, and, when necessary, to the special measurements of windows and doors, while also maintaining all proportions in equilibrium.

Like all Officine Meccaniche Porro products, Enrico Cassina handles can feature either our standard finishes or those requested by our clients.

LE NOSTRE LAVORAZIONI
OUR PROCESSES

STAMPAGGIO A CALDO

HOT FORGING

La tecnologia dello stampaggio a caldo ha preso il posto della tradizionale fusione in quanto consente di ottenere Prodotti di qualità nettamente superiore ed una qualità costante del prodotto.

Le nostre macchine per lo stampaggio a caldo sono le più innovative e performanti disponibili sul mercato ed i nostri Tecnici sono in grado di ottimizzare al massimo il processo produttivo mantenendo il livello di qualità che contraddistingue le Officine Meccaniche Porro.

Hot forging technology has replaced the traditional metal casting process, since it allows producing more consistent and higher quality objects.

Our hot forging equipment is among the most innovative and efficient available on the market, and our technicians are able to optimize the production process, while preserving Officine Meccaniche Porro's renowned level of quality.

PVD (PHYSICAL VAPOUR DEPOSITION)

PVD (PHYSICAL VAPOUR DEPOSITION)

Ovvero il processo di deposizione molecolare in condizioni di alto vuoto e ad alte temperature che consentono ai nostri prodotti di avere un'elevatissima resistenza agli agenti chimici e atmosferici, illimitata resistenza all'ossidazione e un potenziamento di 4 volte della resistenza antigraffio rispetto ai normali rivestimenti galvanici.

PVD, or molecular deposition process in high vacuum conditions and at high temperatures, gives our products extreme resistance to chemical agents and meteorological elements, as well as unlimited resistance to oxidation and scratch-proof properties that are 4 times greater than those achieved by standard galvanized coatings.

BOCCIARDATURA

BUSH HAMMERING

Una speciale macchina consente di bocciardare ovvero rendere corrugata – ma sempre piacevole al tatto – la superficie in ottone pieno.

Questa lavorazione richiede un ritocco manuale al fine di ottenere un manufatto senza sbavature quindi assolutamente perfetto.

A special machine allows to bush-hammer, or corrugate, a full brass surface, making it pleasant to the touch. This process requires manual touch-ups in order to eliminate possible smearing and thus obtain a perfect finished product.

FUSIONE A CERA PERSA

LOST WAX CASTING PROCESS

Un modello in cera viene creato da un Mastro Cesellatore che poi lo riveste accuratamente di polvere ceramica per passarlo in forno a 1200°C.

La cera si fonde (cera persa) e, dell'oggetto, resta un calco in ceramica che fungerà da stampo per la fusione consentendoci di ottenere oggetti in metallo nobile con forme estremamente complesse e dettagli molto accurati.

A wax model is created by a Master Chiseller, who covers it thoroughly in ceramic powder and places it in an oven, at 1200°C.

The wax then melts away (lost wax) and the remaining ceramic cast will serve as a mold for the creation of noble metal objects featuring extremely complex shapes and very accurate details.

CESELLATURA

CHISELLING

Nonostante l'uso di stampi, siano essi gli storici o i più moderni delle collezioni contemporanee, alcuni particolari decorativi richiedono ancora la mano esperta del Mastro Cesellatore che va a rifinire e portare al dovuto risalto i particolari più minuti ottenendo un vero e proprio «pezzo d'arte» unico e immediatamente distinguibile.

Despite the use of molds, whether from historical or more contemporary collections, some decorative details still require the expert hand of the Master Chiseller, who refines and enhances the smallest details, thus producing a true, unique and immediately recognizable "art piece".

LAVORAZIONE ARTIGIANALE

CRAFTSMANSHIP

Tutte le nostre lavorazioni artigianali sono rese possibili dalla struttura produttiva della nostra Azienda che, pur consentendo una notevole rapidità di produzione, è strutturata per piccoli reparti che lavorano in sinergia tra loro.

Vere e proprie botteghe artigiane con il proprio Maestro che, con passione e attenzione, segue il lavoro del proprio gruppo trasmettendo le conoscenze e le tecniche più adatte ad ogni singola lavorazione.

All our creations are made possible by the production structure of our company that, while allowing for considerable speed of production, comprises small departments working in synergy with each other.

True artisan shops, each led by their Master with passion and attention.

Masters carefully oversee the work of their team, sharing the knowledge and techniques best suited to each task.

DIAMANTATURA

DIAMOND DRESSING

Con questo processo di finitura riusciamo a far «brillare» i nostri prodotti come un gioiello prezioso.

La lavorazione consente di ottenere purezza geometrica, planarità delle superfici e un'estrema luminosità; e, quindi si ottiene con l'utilizzo di un diamante naturale, considerato il minerale più duro ed abrasivo in natura.

Diamond dressing allows us to make our products shine like precious jewels.

The manufacturing process allows obtaining geometric purity, flat surfaces and extreme brightness. Diamond dressing is carried out by the use of a natural diamond, the hardest and most abrasive mineral in nature.

CUSCINETTO

BALL BEARING

Per le nostre maniglie abbiamo brevettato un innovativo cuscinetto a sfere in acciaio inox con fermo molla integrato e di uno spessore di soli 5 mm.

Grazie a questo nostro brevetto l'attrito meccanico viene eliminato consentendo una durata nel tempo ineguagliabile.

For our handles, we have patented an innovative stainless steel ball bearing with integrated spring stopper and a thickness of only 5 mm.

As a result, mechanical friction is totally eliminated, thus ensuring unmatched durability over time.

MANIGLIE D'ARTE

Uniche sul mercato per la cura e la realizzazione nel rispetto di precisi canoni estetici.

ASSORTIMENTO

Una collezione di maniglie che ripropone, con estrema cura dei particolari, maniglie di tutte le epoche dal 1630 ad oggi.

FINITURE

Le nostre maniglie vengono ancora rifinite manualmente con la cura e la passione artigianale che contraddistinguono l'Eccellenza Italiana.

MATERIE PRIME

Per le nostre maniglie – come per tutta la nostra produzione – vengono impiegate solo materie prime di elevata qualità.

MISURE

Le misure sono espresse in millimetri. Le misure degli articoli indicate nel catalogo possono subire lievi modifiche di perfezionamento.

100% MADE IN ITALY

Tutti i prodotti Enrico Cassina, come tutta la produzione Officine Meccaniche Porro, sono garantiti come interamente concepiti e realizzati in Italia.

ARTISTIC HANDLES

Unique on the market for the great attention to detail in compliance with particular aesthetic canons.

RICH INVENTORY

A collection of handles that, with great attention to detail, reproduce handles of all art periods, stretching from 1630 to today.

FINISHES

Our handles are decorated by hand with the great care and craftsmanship that embody Italian Excellence.

RAW MATERIALS

For our handles, as well as for the rest of our production, we only use high-quality raw materials.

MEASUREMENTS

All dimensions are in millimeters. Item's dimensions indicated in the price list could vary slightly according to the finished products' requirements.

100% MADE IN ITALY

Like the entire Officine Meccaniche Porro catalog, all Alfredo Porro accessories have been entirely designed and manufactured in Italy.

I COLORI DELLE FINITURE SONO INDICATIVI

Alcune finiture vengono eseguite manualmente e pertanto possono presentare variazioni di tonalità e sfumatura creando doti di unicità e bellezza del prodotto.

THE COLOURS OF THE FINISHES ARE INDICATIVE

Some of the finishes are performed manually therefore variations in colour tone and shading may occur giving beauty and uniqueness to the product.
