Salice Paolo

L'AZIENDA OUR COMPANY

Chi siamo

Paolo Salice crea la sua linea di maniglie classiche a cavallo degli anni 40-50, sfruttando il know how acquisito nella lavorazione dell'ottone.

Tecnica, cultura e competenze artigianali si fondono in una gamma completa per stili e finiture, posizionata nella fascia alta del mercato.

Gli ultimi decenni vedono l'ingresso nel settore moderno, dove la competizione ancor più dura, non lascia alternativa alla ricerca della massima qualità e di un design originale, sempre in equilibrio fra sobrietà e personalità.

Lo stabilimento di Cantù vanta sistemi di depurazione delle acque di processo e per l'aria, conformi alle più recenti normative in materia. Ed ancora, l'installazione di un sistema di grassaggio ad acqua che elimina totalmente l'uso di solventi, persino quelli oggi dichiarati "non dannosi".

Giunta alla sua terza generazione, la famiglia Salice sta guidando il marchio verso importanti cambiamenti, nel rispetto della sua non comune tradizione e in difesa di una produzione genuinamente Made in Italy.

About us

Paolo Salice creates its own line of classic handles at the turn of 40ties and 50ties, taking advantage of the know-how acquired in the machining of brass.

Technology, culture and craft skills come together in a full range of styles and finishes, positioned at the high end of the market. The last decades saw its entry into the modern ground, where competition is even tougher, and leaves no alternative to the research of the highest quality and original designs, always in balance between sobriety and personality.

The plant in Cantù is equipped with a special purification system for processed water and for the air, in compliance with the latest regulations. And yet, the installation of a water degreasing system that eliminates the use of solvents, even those declared today "not harmful".

Now in its third generation, the Salice family is driving the brand to major changes, in accordance with its tradition in defense of a genuinely Made in Italy production.

A propos de nous

Paolo Salice crée sa ligne de poignées classiques dans les années 40/50 en exploitant le savoir-faire acquis pendant l'usinage du laiton.

Technique, culture et compétences artisanales s'unissent dans une gamme complète en termes de styles et de finitions, positionnée sur le marché haut de gamme.

Ces dernières décennies marquent l'entrée dans le secteur moderne, où la concurrence, encore plus rude, ne laisse pas d'alternative à la recherche de la qualité la plus élevée et d'un design original, tout en maintenant l'équilibre entre la sobriété et la personnalité.

L'établissement de Cantù dispose de systèmes d'épuration des eaux de traitement et pour l'air, conformes aux normes les plus récentes en la matière. Et encore, l'installation d'un système de lubrification à l'eau, qui élimine totalement l'utilisation de solvants, même ceux déclarés aujourd'hui "non nocifs".

Il revient maintenant à la troisième génération de la famille Salice de mener la marque vers des changements considérables, tout en respectant sa tradition et en défendant une production authentique Made in Italy.

Sobre nosotros

"Paolo Salice crea su propia línea de tiradores clásicos, durante los años 40-50, aprovechando el know how adquirido con el mecanizado del latón.

Técnica, cultura y habilidades artesanas se funden en una gama completa de estilos y acabados, colocándose en el segmento superior del mercado.

Las últimas décadas han presenciado la entrada en el sector moderno, donde la competencia es aún más difícil, pues no deja ninguna alternativa a la búsqueda de la máxima calidad y a un diseño original, siempre en equilibrio entre la sobriedad y la personalidad.

La fábrica de Cantù cuenta con sistemas de depuración de las aguas de proceso y del aire, que cumplen con las normas más recientes. Además, también posee un sistema de lubricación por agua que elimina totalmente el uso de solventes, incluso de aquellos que actualmente son declarados como "no perjudiciales". Actualmente, en su tercera generación, la familia Salice está impulsando la marca hacia cambios importantes, de acuerdo con la tradición, y en defensa de una producción genuinamente Made in Italy."

О НАС

Паоло Саличе создал свою линию классических ручек на рубеже 40 и 50-х годов, используя ноу-хау, приобретенное в сфере обработки латуни.

Ремесленная техника, культура и компетентность позволили создать полный ассортимент стилей и отделок, позиционирующийся в верхнем сегменте рынка.

В последние несколько десятилетий компания начала работать также в секторе современного стиля, характеризующемся еще более жесткой конкуренцией, не оставляющей возможности обеспечения максимального качества и оригинального дизайна, все также сохраняя строгость и индивидуальность.

Завод в Канту' оснащен системами очистки промышленных стоков и воздуха, соответствующими самым последним стандартам. Кроме того, установка системы водяного обезжиривания позволит полностью отказаться от использования растворителей, даже тех, которые сегодня считаются «невредными».

Уже третье поколение семьи Саличе ведет бренд к крупным переменам при сохранении традиций и защите полностью итальянского производства.

MODERNO *MODERN*

La gamma moderna Salice Paolo è in pieno fermento. Nuovi brevetti e designer puntano ad affermare il marchio oltre la sua riconosciuta eccellenza nel settore classico. Lo stile sobrio non deve essere anonimo: ogni modello è pensato per completare ed arricchire il suo ambiente ideale. Avvicinandovi ad un modello Salice Paolo noterete sempre un dettaglio, qualcosa che sfugge ad un primo sguardo.

The modern range Salice Paolo is in full swing. New patents and new designers are aiming to establish the brand beyond its recognized excellence in the classic field. The simple style should not be anonymous: each model is designed to complement and enrich its ideal environment. As you approach a Salice Paolo model you will always notice a detail, something that escapes at first glance.

La gamma classica Salice Paolo copre tutti i principali stili ed epoche, con disegni originali fatti realizzare da artigiani cresciuti nella prestigiosa Scuola di Arti e Mestieri di Cantù. Le finiture disponibili, la possibilità di personalizzazione e il gran numero di accessori consentono di arredare completamente grandi abitazioni private, ville e resort di prestigio. Pur guardando al passato, la gamma classica Salice Paolo si arricchisce continuamente di nuove finiture, modelli, aggiornamenti, dotazioni tecniche, versioni per tutti i tipi di serrature da interno ed esterno.

The classic Salice Paolo range covers all the main periods and styles, with its original designs made by the artisans grown in the prestigious School of Arts and Crafts in Cantù. The available finishings, the possibilities for customization and the large number of accessories allow you to fully furnish large private homes, as well as villas and luxury resorts. While looking at the past, the classic range of Salice Paolo is continuously enriched by new finishes, patterns, updates, technical equipment, and varieties for all types of locks from inside and outside.

La modalità per ottenere un cristallo cilindrico del diametro di 45 mm con caratteristiche di ottima trasparenza consiste nell'assemblare 3 lastre del tipo "extra chiaro" con speciali colle e trattamenti termici.

The way to get a cylindrical crystal of the diameter of 45 mm with characteristics of good transparency consists of assembling 3 plates of the type "extra clear" with special neck and thermal treatments.

Tale pezzo viene poi rettificato con un macchinario unico al mondo che ne lavora la superficie.

Such piece is corrected then with a worldwide unique machinery that works the surface of it.

La lucidatura e molatura eseguite a mano da esperti artigiani conferiscono unicità al prodotto.

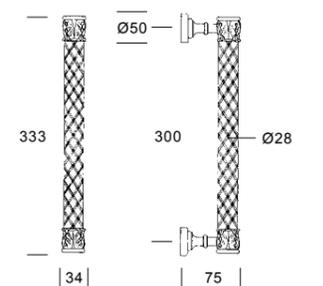

The polish and machining performed by hand by expert artisans confer oneness to the product.

Pertanto, eventuali leggere imperfezioni non sono da ritenersi difetti, ma parte integrante di una lavorazione eseguita manualmente nella maggior parte dei processi di lavorazione.

So, possible little imperfections are not to consider defects but integral part of the workmanship manually performed in the greatest part of the process of manufacture.

COME ORDINARE LA SERRATURA CORRETTA
HOW TO ORDER THE RIGHT LOCK

E' necessario compilare i seguenti campi:
You have to fill up this form:

Tipo di serratura Type of Lock	Tipo di cilindro Type of Cylinder	Misura del cilindro Size of Cylinder

E le scelte sono:
And the possibilities are:

Tipo di serratura Type of Lock	Tipo di cilindro Type of Cylinder	Misura del cilindro Size of Cylinder
L1/L2/L3/L4 L6/L7/L8/L9 (dx sx)	C / DC	29 / 32 / 35 / 38 / 42

I campi "Tipo di serratura" e "Tipo di cilindro" dipendono dall'articolo scelto e dalla funzione della serratura (vedere relativa pagina nel catalogo).
Fields "Type of Lock" and "Type of cylinder" are up to chosen article and to lock function (see related page in our catalogue).

Il campo "Misura del cilindro" dipende dallo spessore della vostra porta.
Fields "Size of cylinder" is up to the door thickness.

Per esempio, avete scelto l'articolo 3237, volete una serratura Non Anti-Panico e la vostra porta ha spessore 45 mm.
For example, you have chosen art. 3237, you want a No Anti-Panic Lock and you door thickness is 45 mm.

Automaticamente vengono compilati i campi:
Following fields are automatically filled up:

COLLEZIONI COLLECTION

Particolarità del catalogo salice Paolo, le Collezioni sfuggono ad ogni definizione o epoca stilistica. Spesso frutto di collaborazione con noti artisti, sono pezzi esclusivi, in cui la creatività è lasciata correre a briglie sciolte. La poesia di questi prodotti è unica, come unici sono gli ambienti che consentono di creare.

Special features of Salice Paolo catalogue, Collections defy any definition or age style. Often the result of collaboration with well-known artists, are exclusive pieces, where creativity is allowed to run at full gallop.

The poetry of these products is unique, as exclusive are the environments that they allow you to create.

QUEEN

Studio Salice Paolo

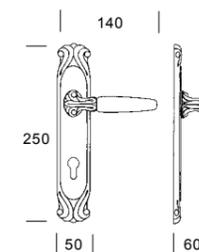

Dalla fusione di specializzazione e tecnologia con creatività e ricerca è nata la collezione Queen. La forma dallo stile classico e raffinato, esclusivo, funzionale e di qualità è realizzata interamente in ottone in varie finiture.

The collection Queen is born from the combination of experience and technology with creativeness and aesthetic research.

The exclusive and high quality shape with a classical and fine style is produced entirely in massive brass, available in different finishes.

Picture detail to show the simple ways to compose the door-pull "Queen" to obtain the desired size.

Esempi e dimensioni di possibili combinazioni.
Examples and sizes of different possible combinations.

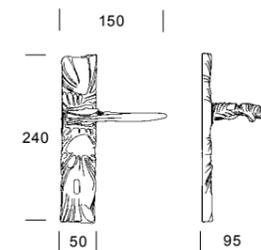

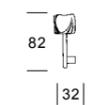

Ho cercato di anteporre alla funzionalità un discorso scultoreo, ottenendo un oggetto d'arte a tutto tondo da porre su ogni porta.

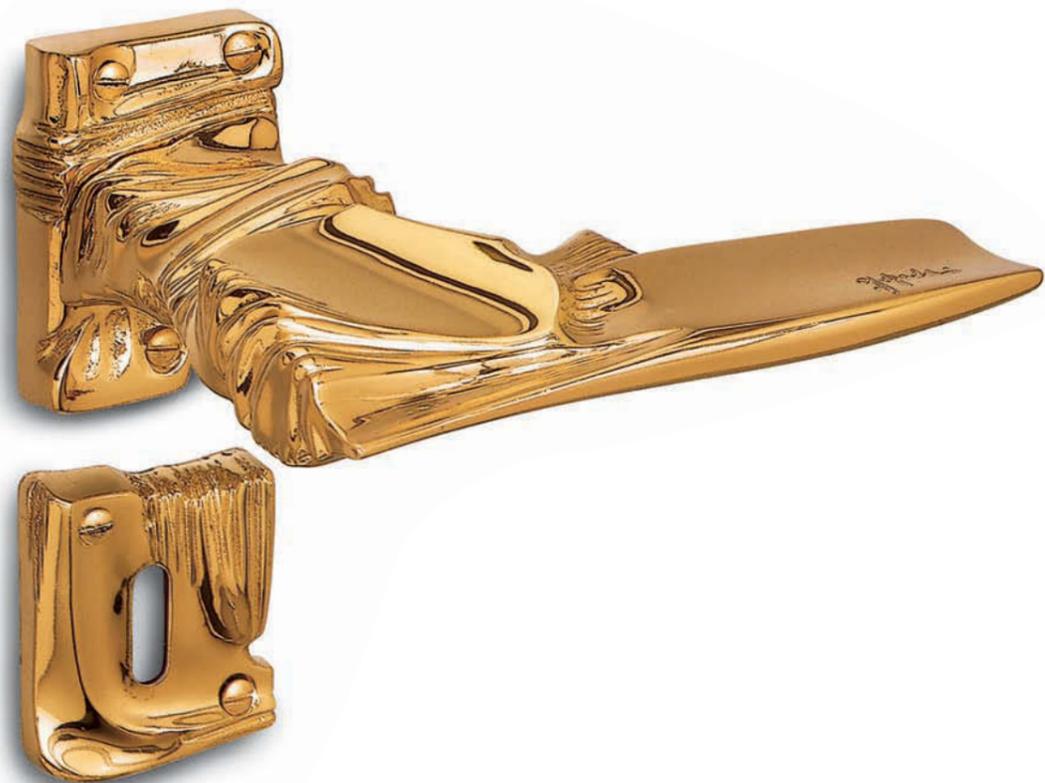

I have tried to put the sculptural goal before the functionality, obtaining a round object of art suitable for any door.

AMMONITE

Giacomo Benevelli

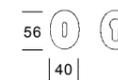

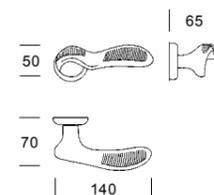

Ammonite, Encrinus, Cimbius e Cymbium sono il punto di vista di un artista che si interroga sul rapporto fra la produzione industriale e le origini della nostra civiltà. Come fossili moderni, questi oggetti riportano nel presente le forme della natura primordiale, simboli e punti di contatto fra la tecnologia e la vita organica. Giacomo Benevelli, scultore fra i più noti, ha sempre riproposto nelle sue opere e monumenti pubblici quelle forme della natura che lo hanno affascinato.

Ammonite, Encrinus, Cimbius and Cymbium are the point of view of an artist who questions the relationship between industrial production and the origins of our civilization.

As modern fossils, these objects bring forms of primordial nature into the present, as symbols and points of contact between technology and organic life.

Giacomo Benevelli, one among the most popular sculptors, always repeated in his works and public monuments those forms of nature that fascinated him.
